

BABY BUDGET

STEP 1:

Fill out your baby checklist and narrow down the specific items you want to purchase.

STEP 3:

Divide the cost by the number of months you have left before baby arrives.

STEP 2:

Add up the cost of every item you need for the baby.

STEP 4:

Fill out the monthly budget sheet. Make adjustments as needed depending on your financial situation, maternity leave, etc.

TIPS

- Don't forget to factor in any other baby expenses to your monthly budget sheet: hospital bills, maternity and newborn photos, etc.
- Pick a specific color for each of the remaining months in your pregnancy. You can use these colors to highlight the items from your original checklist, and it will keep you more organized overall.
- Always do your best to stay under budget. Every month that you succeed, stack it into savings or roll it over into the new month's budget.
- Start with the necessities and work your way through to the more fun stuff. Yes, it's easier said than done! A bassinet may not be as exciting as adorable onesies, but it's important.
